The Department of Emergency Medicine is dedicated to providing the most efficient, compassionate and clinically excellent care for our patients

Seek Urgent/Emergency Care

What is Emergency Care?

Emergency care is needed in the case of a medical emergency. Medical emergencies are the sudden and unexpected onset of a medical condition that:

- Is threatening to life, limb, or eyesight
- Requires immediate medical treatment or
- Manifests painful symptoms that requires immediate response to alleviate suffering

TRICARE International SOS (<http://www.tricare-overseas.com/>) provides 24/7 support for TRICARE overseas beneficiaries, when they need urgent or emergent care or request medical assistance. This includes real-time English translation services provided over the phone. In South Korea, call toll-free 080-591-0880 or direct 65-6338-9277.

What to do in an emergency?

Call 911 or go to the nearest emergency room. Some MTF locations offer ER services and others do not, so be sure to be familiar with the clinics and services offered at your location.

What is Urgent Care?

Urgent care is defined as care needed for a non-emergency illness or injury. This means that it does not threaten an individual's life, limbs, or eyesight, or leave them in intolerable pain for an extended duration of time. An individual may also need to seek urgent care in situations where a health condition or injury may become a more serious risk to their health if left untreated. It is recommended that Department of Defense patients seek urgent care at their local MTF locations first if possible. TRICARE's new **Urgent Care Pilot Program for Non-Active-Duty ONLY** covers two urgent care visits per fiscal year, depending on your type of plan and location. For more information about Urgent Care and what is covered in your plan, please visit [TRICARE](https://tricare.mil/urgentcarepilot). (<https://tricare.mil/urgentcarepilot>). Please note, for active duty, urgent care is available when traveling out of the local area. Contact the Nurse Advice Line as noted below.

What to do for all Urgent Care visits (active duty and non-active duty)?

Call the Nurse Advice Line: [1-800-TRICARE](tel:1-800-TRICARE), Option 1*

- Talk to a registered nurse
- Get health care advice
- Get a referral
- Ask urgent care questions
- Get help finding a doctor

Available only in the continental US states

Enrolled in a Prime Plan?

Call your primary care manager within 24 hours or the next business day after getting emergency care to get authorization and coordinate ongoing care.

Prime plans include:

- TRICARE Prime
- TRICARE Prime Remote
- TRICARE Prime Overseas
- TRICARE Prime Remote Overseas

Interpreter

Location: Wilford Hall Ambulatory Surgical Center, 1st Floor

Please ask a member of the clinic staff for assistance. Medically-trained interpreters are available 24-hours a day.

Language Interpretation

For your convenience, hand-held translator units or three-way phone conversations between you, your provider, and the medical interpreter are available. We use World-Wide Interpreters for our translator needs and they are available 24-hours a day, with no waiting times. They are trained to interpret health care information in over 40 languages. After-hours interpretation is available as well. Please ask the front desk staff for assistance if you require translator services. The clinic staff will simply call (800) 945-7889, give the name of our facility, and state the language required. Verification of the services provided will be made to the company directly from the clinic staff.

Sign Language Interpretation

Please arrange with the clinic in advance for a translator for your next appointment. This will help eliminate any delay while waiting for the interpreter to arrive for your health care visit. Providing our patients with the best possible service is our goal. Please let us know if you have any questions or concerns by calling our Customer Relations at (210) 292-7848. Thank you!

Are You a Hard of Hearing Patient?

Patient service is our number one priority at the Wilford Hall Ambulatory Surgical Center. We are committed to providing each and every one of our patients - both internal and external - the highest quality of service available anywhere. We have many programs in effect at Wilford Hall Ambulatory Surgical Center designed to enhance satisfaction with the care and service we provide and a variety of mechanisms in which our patients can provide us with feedback by going on <http://ice.disa.mil>, under JBSA Lackland, Wilford Hall Surgery Clinic.

Patient Advocate Program

The 59th Medical Wing Customer Advocate Creed: "We are dedicated to successfully advocating for what is right, equally for all customers, the 59th Medical Wing, and the Air Force. We will continually pursue opportunities to improve processes, enhance customer satisfaction, and eliminate barriers."

The 59th MDW Patient Advocate is here to help resolve your patient care concerns. If during any visit to any of our 59th MDW military treatment facilities, we have not succeeded in meeting your expectations, we will work to address the issue immediately. We strive for excellence in patient care. We value our patients' feedback, as it helps us to identify problems and implement improvements. If you would like to provide feedback, please contact the appropriate clinic or section patient advocate.

You can contact the 59th MDW Patient Advocate office at [\(210\) 292-7827](tel:2102927827) or via email at 59MDW.PatientAdvocate@us.af.mil. You can also contact a patient advocate by calling [\(210\) 216-7715](tel:2102167715) Monday through Friday 8 a.m. to 4 p.m.

Or text: lackland afb ucc to (210) 960-8404

The UCC is **NOT** a substitute for an emergency department. People suffering serious illness or injury should go to the closest emergency department. If you go to the UCC with a serious illness or injury, you will be sent or transported by ambulance to a hospital emergency department, and this could delay your care.

The UCC, serving walk-in patients 24 hours a day, seven days a week, is an option for common acute minor medical problems when the patient cannot obtain an appointment with a primary care provider or a clinic is closed. The UCC staff treats minor illnesses and injuries, including flu, fever, earaches, nausea, rashes, animal and insect bites, minor bone fractures and minor cuts that require stitches.

The UCC is staffed by military and civilian family practice physicians, physician assistants, nurses and medical technicians. The UCC provides open access care for all eligible Department of Defense beneficiaries.
